

## Physician Assistant (PA)

### About Us

*At Bhatti GI we strive to provide outstanding medical care for all gastroenterological needs. Our practice specializes in the diagnosis and treatment of digestive diseases involving the esophagus, stomach, small and large intestine, rectum, liver, pancreas, and biliary system. We pursue the highest standard of care by embracing state-of-the-art technology, and partnering with the surrounding hospital communities to provide a full spectrum of treatment options for our patients. We are committed to the emotional and psychological well-being of our patients, and the comfort and convenience of both the patients and their families.*

### **Position Description:**

The Physician Assistant provides diagnostic and therapeutic services to patients under supervision of and collaboration with physicians consistent with clinic policy and regulatory requirements defined by licensure. Provides high quality, efficient, and cost-effective care to patients and their families in the clinic, outpatient, and hospital setting.

- Provides patient care during consultation/follow up consistent with clinical standards including assessment, diagnosis, outcome identification, planning, implementation and evaluation in the clinic and hospital.
- Initiation and management of prescriptions and therapies for preventative and chronic GI diseases.
- Provides inpatient coverage including patient rounds, and performing consults, and coordinates post-discharge follow-up plan with the physician to assure continuity of care.
- Effectively communicates and coordinates plan of care with patients and their families, referring physicians, and supporting professional team members in both the hospital and clinic setting.
- Collaborates with the Practice Administrator, Reception, and Clinical team leads to build and maintain a cohesive, patient focused team environment.
- Maintains clinical and coding knowledge, and aids in development of patient education and quality improvement initiatives for the practice.
- Serves as a role model of customer service for patients, co-workers, and referring providers.

### **Qualifications:**

- Graduate of an accredited physician assistant program.
- Current and valid Minnesota Physician Assistant license.
- Current NCCPA certification for Physician Assistants.
- One to three years of practice experience in an adult medicine setting preferred; gastroenterology highly preferred.
- ACLS/BLS Certified

**Details of PA/NP Position:**

- Hours = Full Time, Monday – Friday, *no weekend or evening hours.*
- Competitive Salary
- Eligible for 401K, PTO, and Medical/Dental Insurance
- Employer compensation for all memberships, licenses, and dues.
- Reports directly to the Physician/Owner and Practice Administrator.
